

Introducing A.C.T.S (Aromatherapist Client Tracking System), a quick and simple tool for tracking client treatments, recipe selection and essential oils inventory. Issues like client conditions to recipe, treatments and billings are imperative to a successful aromatherapist. Not only must the data be accurate is must also be a click away. ACTS addresses these issues with an easy to use and fast system to access the client data.

Specification:

- Oils Manager, over 90 Oils included.
- Current oils inventory.
- Oils selection and mixing with bottle display.
- Cumulative effect of oils shown as a graph.
- Automatic condition to recipe cross-reference into base, mid and top note oils.
- Client datasheet.
- Treatment reports.
- Labels printer for bottles.
- Billing sheet:
- Hourly.
- Fixed rate.

The Aromatherapist can manage clients and oils with a single program. The Client data can be quickly reviewed and changed. A label can be printed on one of a sheet of labels. Oil quantity and type can be managed as a treatment or as inventory.
